

exception

```
graph BT; CPFInexistente[CPFInexistente] --> exception[exception];
```

The diagram illustrates a class hierarchy. At the bottom is a gray rectangular box labeled 'CPFInexistente'. A blue arrow points vertically upwards from the top center of this box to the bottom center of a white rectangular box labeled 'exception' positioned above it. This indicates that 'CPFInexistente' is a subclass or inherits from 'exception'.
